

Wisconsin Boat Registration

Wisconsin Boat Registration History Report

Decals can be ordered and displayed [here](#)

Wisconsin boat registration FAQs are found below and can be downloaded as PDF. We have written this page to inform the boating community about registration requirements, recording methods, and title search guidelines for the *State of Wisconsin*.

We will cover information about the Boat Registration Agency in this state and if you are wondering about Registration and marking requirements we have an overview of that as well. We also talk about Registration Requirements for boat in Wisconsin along with things you need to know about [boat Ownership](#) and Liens so you can better perform Boat Title Searches or boat history lookups in WS.

Where are Wisconsin Boats Registered?

Remember, some states have titling for boats and others do not. Wisconsin issues both registrations and titles for all non-exempt boats operating within its jurisdiction. These are administered by the WS STATE [Department of Natural Resources \(DNR\) in Madison](#). This state does not issue titles or registrations for outboard motors but note that Boat trailer registration and titling would be mandatory for those weighing over 3,000 lbs.

Did you know that boats registered in the State of Wisconsin make up 5.0% of all USA vessel registrations?

Wisconsin Boat Registration Numbers

Wisconsin boat registration numbers begin with a **"WS"**. The WS designation is followed by four numbers and then two letters like in most states. You will have to display these as shown above if your boat is non-documented at the USCG. Put the WS boat registration sticker tab next to it. The state reg. number should not be confused with the [12 character Hull ID](#) (HIN).

All boats manufactured after 1972 are required to have a 12 digit hull identification number affixed to the vessel by the manufacturer. State assigned hull numbers prefixed with the letters **"WSZ"** are available for home made boats and those without factory designations. Hull number inspections are not required in Wisconsin unless there is a discrepancy.

[Order custom Vinyl registration Decal from ebay.](#)

Exceptionally, a [Coast Guard documented vessel](#) does not need to display the state registration number but instead they would display the state registration tabs, an owner designated vessel name, and a hailing port. The USCG Official documentation number must also be affixed on other location on the boat: interior location in the hull itself or an integral part of the hull.

Boat Liens Database In Wisconsin

Security interests in state titled boats are recorded with the Motor Vehicle Services department in WS. These will be shown on both the registration and **title** certificates if there are any. Security interests in boats that are neither titled or USCG documented are recorded with the Secretary of State as Uniform Commercial Code (UCC) filings. If the [vessel is USCG documented](#), a lender's security interests will be recorded with the National Vessel Documentation Center (NVDC) and are indexed on the boat's **abstract of title**. This is different from state registration lookups and can be ordered at [boat-abstract.com](#).

Tax liens may be flagged on boat registration records, recorded as UCC filings, shown on state revenue records, or filed with a county clerk's office. There are no provisions for recording mechanic's liens or other non-secured claims against state titled boats. Uniform Commercial Code searches are available online from the Secretary of State.

Wisconsin Boat Registration Number Search Website

Boat title and registration records in Wisconsin are maintained by the Department of Natural Resources (DNR). This agency does not facilitate online searches on their website.
