Mississippi boat registration FAQs are found below and can be downloaded as PDF. We have written this page to inform the boating community about registration requirements, recording methods, and title search guidelines for the *State of Mississippi*.

We will cover information about the Boat Registration Agency in this state and if you are wondering about Registration and marking requirements we have an overview of that as well. We also talk about Registration Requirements for boat in Mississippi along with things you need to know about [boat Ownership](#) and Liens so you can better perform Boat Title Searches or boat history lookups in MS.

Where are Mississippi Boats Registered?

Remember, some states have titling for boats and others do not. Mississippi issues both registrations and titles for all non-exempt boats operating within its jurisdiction. These are administered by the MS State Department of Wildlife, Fisheries, and Parks ([MDWFP](#)) which is located in Jackson. Titles are provided as an option for outboard motors. Registration is required for boat trailers in Mississippi.

Did you know that 120,000 boats registered in the State of Mississippi make up 1.1% of all USA vessel registrations?

Mississippi Boat Registration Numbers

Mississippi boat registration numbers begin with a "MI". The MI designation is followed by four numbers and then two letters like in most states. You will have to display these as shown above if your boat is non-documented at the USCG. Put the MS boat registration sticker tab next to it. The state reg. number should not be confused with the [12 character Hull ID](#) (HIN).

All boats manufactured after 1972 are required to have a 12 digit hull identification number affixed to the vessel by the manufacturer. State assigned hull numbers prefixed with the letters "MIZ" are available for home made boats and those without factory designations. Hull number inspections are not required in Mississippi unless there is a discrepancy.

Exceptionally, a [Coast Guard documented vessel](#) does not need to display the state registration number but instead they would display the state registration tabs, an owner designated vessel name, and a hailing port. The USCG Official documentation number must also be affixed on other location on the boat: interior location in the hull itself or an integral part of the hull.

Boat Liens Database In Mississippi

Security interests in state titled boats are recorded with the Department of Wildlife, Fisheries, and Parks in MS. These will be shown on both the registration and **title** certificates if there are any. Security interests in boats that are neither titled or USCG documented are recorded with the Secretary of State as Uniform Commercial Code (UCC) filings. If the [vessel is USCG documented](#), a lender's security interests will be recorded with the National Vessel Documentation Center (NVDC) and are indexed on the boat's **abstract of title**. This is different from state registration lookups and can be ordered at [boat-abstract.com](#).

Tax liens may be flagged on boat registration records, recorded as UCC filings, shown on state revenue records, or filed with a county clerk's office. There are no provisions for recording mechanic's liens or other non-secured claims against state titled boats. Uniform Commercial Code searches are available online from the Secretary of State.
