

Missouri Boat Registration

Missouri Boat Registration History Report

Decals can be ordered and displayed [here](#)

Missouri boat registration FAQs are found below and can be downloaded as PDF. We have written this page to inform the boating community about registration requirements, recording methods, and title search guidelines for the *State of Missouri*.

We will cover information about the Boat Registration Agency in this state and if you are wondering about Registration and marking requirements we have an overview of that as well. We also talk about Registration Requirements for boat in Missouri along with things you need to know about [boat Ownership](#) and Liens so you can better perform Boat Title Searches or boat history lookups in MO.

Where are Missouri Boats Registered?

Remember, some states have titling for boats and others do not. Missouri issues both registrations and titles for all non-exempt boats operating within its jurisdiction. These are administered by the Missouri [department of revenue](#) in Jefferson city. Outboard motors are titled and registered in Missouri. Titles and registrations are required for boat trailers.

Did you know that boats registered in the State of Missouri make up 2.4% of all USA vessel registrations?

Missouri Boat Registration Numbers

Missouri boat registration numbers begin with a "MO". The MO designation is followed by four numbers and then two letters like in most states. You will have to display these as shown above if your boat is non-documented at the USCG. Put the MO boat registration sticker tab next to it. The state reg. number should not be confused with the [12 character Hull ID](#) (HIN).

All boats manufactured after 1972 are required to have a 12 digit hull identification number affixed to the vessel by the manufacturer. State assigned hull numbers prefixed with the letters "MOZ" are available for home made boats and those without factory designations. Hull number inspections are required in Missouri and so are sales taxes and titling of abandoned boats.

[Order custom Vinyl registration Decal from ebay.](#)

Exceptionally, a [Coast Guard documented vessel](#) does not need to display the state registration number but instead they would display the state registration tabs, an owner designated vessel name, and a hailing port. The USCG Official documentation number must also be affixed on other location on the boat: interior location in the hull itself or an integral part of the hull.

Boat Liens Database In Missouri

Security interests in state titled boats are recorded with the Motor Vehicle Bureau or department of revenue MO. These will be shown on both the registration and **title** certificates if there are any. Security interests in boats that are neither titled or USCG documented are recorded with the Secretary of State as Uniform Commercial Code (UCC) filings. If the [vessel is USCG documented](#), a lender's security interests will be recorded with the National Vessel Documentation Center (NVDC) and are indexed on the boat's **abstract of title**. This is different from state registration lookups and can be ordered at [boat-abstract.com](#).

Tax liens may be flagged on boat registration records, recorded as UCC filings, shown on state revenue records, or filed with a county clerk's office. There are no provisions for recording mechanic's liens or other non-secured claims against state titled boats. Uniform Commercial Code searches are available online from the Secretary of State.

Missouri Boat Registration Number Search Website

Boat title and registration records in Missouri are maintained by the DOR. This agency does not facilitate online searches on their website.
